(BMV: HOTEL) (the "HOTEL" or the "Company"), announced its consolidated results for the third quarter ("3Q23") ended September 30, 2023. - 3Q23 Total Revenues were Ps. 655.9 million, compared to Ps. 652.4 million in 3Q22, a $0.5 \%$ increase due to growth in Food and Beverages Revenue and Vacation Club Revenue, which more than offset decreases in Room Revenue, ThirdParty Hotels Management Fees, and Other Hotel Revenue.
- In 3Q23, HOTEL posted a Net Loss of Ps. 54.7 million, compared to Net Income of Ps. 50.9 million in 3Q22. This was driven by a higher foreign exchange rate loss combined with increased interest payments.

- At the end of 3Q23, the Net Debt/LTM EBITDA ratio was 3.0x, in line with our long-term target.
- HOTEL's total portfolio at the end of 3Q23 was 5,932 rooms in operation, slightly below the number reported in 3Q22.
- RevPAR ${ }^{2}$ for Company-owned hotels decreased from Ps. 931 in 3Q22 to Ps. 926 in 3Q23, a 0.5\% decrease due to a 2.3 percentage point reduction in Occupancy, which was partially offset by a $3.2 \%$ increase in ADR. ${ }^{2}$

## Comments from the Executive Vice President

## Mr. Francisco Zinser, stated:

Summarizing our results, revenue totaled Ps. $2,249.3$ million for the first nine months of the year, up $17.7 \%$ compared to the same period of 2022. EBITDA was Ps. 659.4 million for the first nine months of the year, up $23.6 \%$ compared to the same period of 2022. RevPAR at Company-owned hotels increased $15.8 \%$, comprised of an $11.5 \%$ increase in ADR and a 2.4 percentage point expansion in Occupancy for the first nine months of the year compared to the same period of 2022. The Company was able to post these results despite a decrease in tourism in Mexico, driven by drops in airport traffic that began in April, which have now reached high single digit-declines. Our LTM EBITDA as of September 30, 2023, was Ps. 874.9 million, and our Net Debt to LTM EBITDA ratio was $3.0 x$, which is in a range we feel comfortable with over the long term.

I would like to reiterate that we will remain focused on tightly controlling expenses to preserve liquidity levels and continuing to search for operational and financial opportunities to ensure the long-term sustainability of our business.

To wrap up, I would like to mention that none of these achievements would have been possible without the support of our dedicated employees, experienced management team, and the confidence that you, our investors, have placed in us.

## Hotel Classification

For comparison purposes, the hotel portfolio is classified by: (i) Company-owned hotels and (ii) those owned by third parties that are managed by HOTEL. The rationale for this classification is that the largest portion of revenue is provided by Company-owned hotels. While commercially relevant for the hotel platform, hotels under management only generate management fees for the Company, which are shown in the P\&L statement under Third-Party Hotels Management Fees.
Of a total of 5,932 hotel rooms in operation, the operating indicators for 3 Q 23 include 5,613 rooms, 263 rooms from the Vacation Club, 45 rooms have unavailable information, and 11 rooms under construction are excluded from this analysis. They are detailed at the end of this report in Appendix 1. The following table is a summary of 3Q23 key operating metrics compared to the same period of last year, based on the classification. The methodology used to determine the number of rooms considers the number of available rooms divided by the corresponding number of days in each period.

## Net Income

Net Income went from a Ps. 50.9 million gain in 3Q22 to a Ps. 54.7 million loss in 3Q23, explained by the previously mentioned factors.

During the first nine months of the year, approximately $33.4 \%$ of revenue and $59.7 \%$ of cash flow was denominated in US dollars.

At the end of the first nine months of the year, the Company's debt coverage ratio was 1.4 x , mainly due to higher revenues and profitability. In addition, HOTEL had a US dollar-denominated cash balance of Ps. 85.6 million at the end of 3Q23, decreasing its total exposure to currency risks. Excluding one-time effects, such as the profit of the Barceló Guadalajara hotel, debt payment on Barceló Guadalajara, and prepayment of the residential portion of Insurgentes Sur 724 debt, our Year-to-Date September 2023 Debt Service Coverage Ratio would have been 1.6x.
