## Comments from the Executive Vice President

Mr. Francisco Zinser, stated:

All in all, 2023 was a year with healthy top and bottom-line growth. In the last quarter, our hotel, Krystal Beach Acapulco was affected by hurricane Otis. this event had an impact on our quarterly results and will continue impacting until the end of 2024. In terms of operating indicators of Company-owned hotels, in 2023 we increased our RevPAR by 12 percent, driven by a 9 percent increase in ADR combined with a 1.6 percentage point expansion in occupancy compared to 2022. Revenue totaled Ps. 2,959 million for 2023, up 12 percent compared to 2022. EBITDA was Ps. 840 million for the year, up 12 percent compared to 2022. We were able to post these results despite a decrease in tourism in Mexico, driven by drops in airport traffic that began in April.

Just a few days ago, we announced that the Krystal Grand Puerto Vallarta hotel will be converted into the Breathless Puerto Vallarta Resort \& Spa by Hyatt, a grand tourism category resort. The conversion is expected to conclude in the second quarter of 2025 and will offer 451 luxurious rooms and suites. The resort is the latest addition to the breathless resorts \& spa brand collection, which includes branded properties in Mexico, Dominican Republic and Jamaica. Breathless Resorts \& Spas offer an authentic experience infused with stylish originality and the ideal blend of relaxation and entertainment for alladults.

Lastly, I would like to mention that none of these achievements would have been possible without the support of our dedicated staff members, experienced management team, and the confidence placed in us by our investors.

## Hotel Classification

For comparison purposes, the hotel portfolio is classified into: (i) Company-owned hotels, and (ii) those owned by third parties that are managed by HOTEL. The rationale for this classification is that Company-owned hotels form the basis of the majority of revenues. While commercially important and relevant for the hotel platform, hotels under management only generate management fees for the Company, which are shown in the profit and loss statement under Third-Party Hotel Management Fees. At the end of 4Q23, HOTEL had 15 Company-owned hotels and 11 third-party owned hotels under management.

Of a total 6,258 hotel rooms in operation, the operating indicators for 4 Q 23 include 5,626 rooms; 632 rooms (263 corresponding to Vacation Club, 45 rooms with unavailable information, 260 rooms in renovation and 64 unavailable rooms) are excluded from the present analysis and are detailed at the end of this report in Appendix 1. The following table is a summary of the main 4Q23 operating indicators compared to the same period of last year, based on hotel classification. The methodology used to determine the number of rooms divides the total number of available rooms by the corresponding number of days in each period.
